EGGER MAKES MORE FROM WOOD A HIGHLY-RESPECTED FAMILY OWNED COMPANY

As a full-range supplier for Timber and wood-based materials we live our motto “More from wood”. Under the EGGER umbrella brand, we combine a comprehensive product spectrum for the furniture and interior design wood construction and flooring.

Since we laid the foundation for the EGGER Group in 1961 with the first chipboard plant in St. Johann in Tirol, we have been achieving sustainable international growth based on our own performance. Thanks to extensive investments, all of our 17 locations are state-of-the-art.

We consider ourselves an internationally operating family enterprise with Tirolese roots focusing its activities in Europe. However, supplying export markets from Asia to Oceania to America is also part of our strategy.

St. Johann in Tirol (AT)

FROM THE TREE TO THE PRODUCT – A CLOSED CYCLE

In our core values we have allocated the **sustainable** use of wood-based materials the highest priority. That is why we count on fully integrated locations. There, wood is initially used materially. This extends from solid wood production in the sawmill to the production of wood-based materials such as laminate flooring. Wood residues and recycled wood that cannot be used in production is utilised as thermal fuel in our biomass power plants to generate energy for production. We therefore optimise our use of the resource wood to protect our climate. In our environmental cycle, we have summarised all processes of our philosophy.

PRODUCTS – INNOVATIVE SOLUTIONS AND THE HIGHEST QUALITY FOR YOUR PROJECTS

With EGGER, you are putting your trust in an experienced partner with numerous plants across Europe. Our highly modern, state-of-the-art production facilities allow us to guarantee the high quality of our entire product range. In addition, our extensive network of sales offices and numerous specialist distributors ensures reliable service and logistics.

EURODEKOR RAW CHIPBOARDS

Eurodekor melamine-faced boards are available in an extensive range of decors and material combinations for a variety of application possibilities in furniture and interior design. The coreboard is available as Eurospan E1 EPF-S P2 CE (CARB 2).

Format	Thicknesses
81 × 110"	18 mm

LAMINATES

Due to its multi layered construction, EGGER Laminate is the perfect material for high traffic areas or where a hard wearing surface is required.

Format	Thicknesses
51 × 110"	0.8 mm, 2.0 mm
81 × 110"	0.8 mm

ABS EDGING

EGGER ABS edging consist of thermoplastic edges used for small-surface area coatings of all wood-based materials. They are specifically matched in terms of colour, grain, surface texture and gloss and are available in a large selection.

Format	Length
7/8" × 0.8 mm × 246'	75 m roll

VDS FAMILY – THINK WITHOUT LIMITS

Digital technologies allow us to visualise the world of furniture and interior decorating in a completely new way today. With its **VIRTUAL DESIGN STUDIO**, EGGER has created an interactive experience to support individual clients with their purchases.

VDS HD

“VDS HD” is a high-resolution program that can be run on a high-definition (HD) multi-touch flat screen. Various room sets can be interactively loaded on the 40-inch screen from a room library and high-resolution decors can be applied. Services include the integration of your own room images, as well as ongoing updates when new decors are introduced.

VDS HD WITH QR OR MRI TECHNOLOGY

With this VDS we offer two different systems for the interactive, optical recognition of decor samples. Patterns equipped with a marker are recognised by the system and can directly be integrated into your room situation on screen. By combining original samples with the digital world, customers are offered an **INTERACTIVE EXPERIENCE**.

VDS KITCHEN BOX

The Kitchen box was developed to help support the planning of kitchens even better. Decors are projected onto a 3 m wide kitchenette with wall units. The layout, fronts, worktop thicknesses and handles can be varied.

VDS PROFI

VDS PROFI 2.0 is a flexible, cross-manufacturer visualisation software and the **PERFECT TOOL FOR PC STATIONS AND LAPTOPS**. It supports the individual design of rooms with furniture and flooring decors. Place EGGER decors into a wide variety of available room sets or alternatively upload your own images. www.egger.com/vds

VDS ONLINE / VDS APP

VDS ONLINE is a free and lighter version of VDS PROFI to visualise your own ideas and those of your customers. For mobile devices download our new VDS APP and view all EGGER decors at any time. Download the free VDS APP by visiting www.egger.com/vdsonline or directly checking the Playstore or Apple Appstore.

For more information about the digital solutions, please visit www.egger.com/vds

ZOOM NEW INTRODUCTIONS: EXPERIENCE THE DIFFERENCE

The Zoom innovations are accompanied by a whole new generation of surfaces that combine the best of two worlds. The pinnacle of perfection. A whole new product experience in decors and surfaces.

EGGER is following a consistent process in development and production. This is the only way to achieve a quality of depth in texture images which is new in the market. Highly modern technology, maximum expressiveness and services in EGGER quality – that makes the difference in the Zoom Introductions. **EXPERIENCE THE DIFFERENCE.**

This new generation of high-tech products makes it possible for you to address a whole new target group going forward.

We identified the latest major trends for the Zoom collection and met them with 20 new decors and perfectly matched deep textures.

The result: **EXPRESSIVE TEXTURE AND DECOR VARIATIONS THAT MAKE THE DIFFERENCE.**

Each of the character worlds inspires entirely new room and object designs in many different fields of application.

**EXPERIENCE THE
DIFFERENCE**

www.egger.com/zoom

CLASSIC & MODERN

Various woodgrains such as maple, beech and cherry are amongst our bestsellers. They have a permanent place in the Zoom collection for the classic interior design style in both domestic and commercial applications. We have also developed newer, modern interpretations of these bestselling classics that can be easily combined with our uni colours.

H1379 ST29 Brown Orleans Oak    

H3760 ST29 White Cape Elm    

H1424 ST22 Woodline Cream   

H1298 ST22 Sand Lyon Ash   

H1484 ST22 Brown Grey Avola   

H3766 ST29 Dark Brown Cape Elm    

AUTHENTICS

Nature meets design. What was considered a flaw in the past is now seen as individual and authentic: woodgrain decors with dominant knots, cracks and striking features bring originality into today's world of interior design.

USED LOOK

Materials with signs of use, weathering or wind cracks, have the vintage look. In a world where flawless surfaces have prevailed, used look materials bring life and character to the field of design. These decors create the opposite effect to purism and linearity with their imperfections.

2014

ARTWOODS

Artwoods consist of wood designs and colours that are not found in nature. These include striking and dominant large scale designs, that can be used on expansive surface areas to create an imposing effect. In this decor world, you will also find finely linear wood effects with metallic lines or fantasy colours.

EXOTICS

Tropical or fantasy woodgrains constitute an exclusive alternative to the everyday. Classic, exotic wood types tend to have red tones, whilst modern exotic wood types are often brighter or feature more grey tones. The ST22 Matex surface gives the look and feel of linear brushed wood.

H3078 ST22 Hacienda White

H3090 ST22 Driftwood

POWERFUL EFFECT THROUGH THE HARMONISATION OF DECOR AND TEXTURE

With Zoom the chosen surface texture enhances the decor. Here you can see an overview of all the textures.

ST22 Matex – Thanks to its feel and matt-gloss areas, it gives linear and lively woodgrain decors more naturalness and depth for a more realistic wood-like finish.

ST36 Brushed Wood – This surface exhibits a deeply brushed but very natural, matt character that gives many different types of wood an extremely authentic feel.

ST28 FEELWOOD Nature – Gladstone Oak is a synchronised decor using ST28 "Feelwood Nature" which emphasises the sand blasted character of this oak decor.

ST29 FEELWOOD Ambiance – With its matt-gloss effect, this synchronised pore decor emphasises the course of the large florets in Cape Elm. This decor is also retraced by soft recesses for a tactile effect.

EDGING

Only perfectly matched edge finishes results in the premium impression of the end product. With the EGGER edging programme, Zoom offers a complete decorative solution.

EGGER ABS EDGING consists of thermoplastic ABS edging for the decorative finishing of edges on all wood-based materials. It is perfectly coordinated with Zoom in terms of colour, grain, surface texture and gloss level, and is available in a large selection of thicknesses and widths.

PROPERTIES:

- In decor and texture combinations with Zoom
- Additional protective coating on uni decors for error-free processing
- Low roll lengths available from quantity of one roll
- Original EGGER edging is recognisable by the printed reverse side

Edging available in decor and texture match. Details please find in the availability guide.	ABS Edging

EURODEKOR MELAMINE FACED CHIPBOARD

Eurodekor melamine faced chipboard offers unique design flexibility for furniture construction and interior design. EGGER melamine and ABS edging as well as EGGER laminate from stock and laminate bonded boards are available in decor and texture combinations with Zoom.

PROPERTIES:

- Comprehensive design versatility with co-ordinating surface textures
- Optimum surface properties
- Ideal cutting quality without chipping
- Processing with low tool wear
- In accordance with EN 14322

For **AVAILABILITY** see the decor section in this brochure or the Zoom availability guide.

Further core boards available upon request: Eurospan E1 P3/MR CE, Eurospan JP FO,3 (F****), Eurospan E1 EPF-S P2 CE (CARB 2), Eurospan Flammex B/B1/M1, Eurospan E1 P5 CE, EGGER MDF-ST E1 CE, Eurolight Lightweight Boards, EGGER OSB Combiline. For the Eurodekor technical datasheet, visit www.egger.com/downloads.

EURODEKOR PROGRAMME

Decors	Format	Thicknesses
Zoom decors	2,800 × 2,070 mm	8, 10, 12, 16, 18,19, 22, 25, 28, 30, 32 and 38 mm

LAMINATES

EGGER laminates combine great durability and an attractive design. The multi-layer composition and the materials that are used guarantee high surface quality across all decors.

Not only are EGGER laminates available in matching Zoom decor and texture combinations, they also constitute versatile materials for various applications beyond classic furniture construction and interior design, for example in the door industry, trade fair and shop fitting or the shipbuilding and car industries.

PROPERTIES:

- High strength
- Decor and texture combinations with all Zoom products
- Various laminate qualities for a wide variety of applications

Product	Application	Advantages	Technical Characteristics
Laminate MED	Worktops, furniture fronts, window sills, doors, tabletops, boards for recesses and carcasses	High durability, suitable for post-forming, universal application, with additional MED qualification	Per EN 438:2005, laminate MED can be classified as HGP (horizontal general-purpose post forming). Thanks to the MED quality (Marine Equipment Directive) confirmed by the Lloyd's certificate, it is also suitable for shipbuilding applications.
Real aluminium laminate	Anywhere real metal surfaces are desired	The cool, metallic appearance is the key feature of this laminate	Made of core layers impregnated with phenolic resins and a coated aluminium foil. The coating can be transparent or coloured.
Laminate W1001	For solid-coloured laminate interior design solutions	Solid colour, emphasis of the laminate edge. <i>NEW</i> – additional qualification MED	Not suitable for post-forming. Please observe special processing instructions.
Laminate Flex (on a roll)	Worktops, furniture fronts and window sills	The especially high flexibility of this laminate quality supports radii from 3 mm. Waste is minimised through custom laminate lengths.	Per EN 438:2005, EGGER Laminate Flex can be classified as laminate type P (post-forming).
Laminate painting grade (made-to-order)	For paintable furniture and interior design	Custom colours	Made of several core layers impregnated with phenolic resin, one paintable front side and one rear side suitable for gluing
Laminate Flammex  (order-specific)	Lamination of doors, partition walls and wherever low flammability elements are needed	Low flammability, low smoke development, no softening and no dripping while burning	Classified as laminate type F (flame-retardant) per the EN 438:2005 standard. In case of fire, it meets the special requirements of building materials class B1 per DIN 4102-1:1998-05 and the French fire behaviour category M1 per NF P 92-501.

EGGER LAMINATE PROGRAMME

Decors	Formats	Thickness
Zoom Decors	2,800 × 1,300	0.8
	4,100 × 1,310	0.8
	4,100 × 1,310	0.5

For **LAMINATE DECORS**, see the decor section in this brochure or the Zoom availability guide.
